

MINUTES OF FIRST REGULAR MEETING OF NEW SCHOOL BOARD

The following are the minutes of the first meeting of the Board of Wainwright, S.D., No. 1658, held in the Court House on March 24th when the following members were present: Chairman, Bowerman and Trustees Washburn, Middlemiss, Boyd and Prosser.

The minutes of the last meeting having been read and confirmed the newly elected trustees took their oaths of office.

On a motion by Washburn and Boyd, Trustee Middlemiss was elected chairman of the Board for the year 1925.

Boyd-Prosser—That Mr. A. Millsburn and Bowerman be appointed Finance Committee for the year.

Washburn-Middlemiss—That Trustee Boyd and Prosser be appointed Property Committee for the year.

Boyd-Prosser—That Mr. A. Millsburn be appointed secretary-treasurer for the year 1925, and that the chairman secure the necessary land, covering his office.

Washburn-Prosser—That the report hold their regular meetings on the first Monday of each month at the school buildings, for the transaction of business, of the necessary kind, covering his office.

Washburn-Prosser—That communication from Inspector Nelson, enclosing reports on teachers J. D. Layne, Miss Rankin and Miss Limpert be acknowledged and filed.

Washburn-Prosser—That Mr. A. Haney be notified that if lighting contract be not completed by the 28th inst., that the Property Committee be instructed to have the work completed and charges deducted from Mr. Haney's contract with the Board.

Prosser-Boyd—That the account of Mr. Suckling for bookcase purchased from the Board be rendered.

Washburn-Prosser—That the secretary be instructed to procure the necessary agreement covering Miss C. Kye's teaching time from October 1st to the end of the year, and a copy sent to the Department.

Washburn-Boyd—That the secretary be instructed to procure 1000 report forms and 250 report forms.

The following accounts were presented by the Finance Committee, and on motion of Washburn-Prosser same were ordered paid:

Teacher's salaries	\$107.00
Junior salary	100.00
Secretary salary	100.00
Aha. Gov't telephone	4.75
Electric Light	3.04
Wain. Star, pub. Fin. Stat.	12.50
Mrs. Horne, washing	1.20
B. Laird, lab. r.	33.00
Atlas Lbr. Co.	45.95
Imperial Lbr. Co.	1.80
Wain. Pharmacy, supplies	14.61
Wain. Washburn, supplies	13.50
Wain. Sheet Metal	3.00
T. Johns	3.00
Revenue Stamp	2.00

The meeting then adjourned.

THANKS ARE DUE TO PROMOTERS OF ALL PUBLIC UTILITIES

To the man who remembers the first street car that ever ran in his town or who has stumbled from one dim patch of light to another thrown at intervals upon a dark street by flickering gas lamps or who recalls with a shiver the winter days when he was forced to leave his warm bed to start the breakfast fire in the old cook stove or who ever lived ten miles from a telephone or telegraph station, the development of urban and suburban transportation, of lighting, of gas and electric power, of the telephone and the telegraph, is a source of never-ending wonder. To the younger generation, who remember none of these things, and who accept the conveniences provided by public service corporations as a part of the natural order of things, full appreciation of the value of these services is more difficult. A strike by the employees of the street railway, or a breakdown at the power plant, gives a brief glimpse of conditions as they would be without the services that are accepted as a matter of course. But temporary suspensions of public service facilities of any kind lead to suppression of all other work and effort as well, so that the public of to-day only knows the difference between having these services and not having them. It seems little or nothing of the great importance that these public services really are.

Oil Activity Again Commences

This week sees a real start made on work in the oilfield here, and within the next few days, it is hoped to have things humming at least three or four of the wells.

We learn on good authority that Mr. "Happy" Aiken, who was in charge of the drilling crew of the B.P. No. 4 well last season, has been wired for, and that he is now on his way here from his home in St. Houston, Texas, where he has spent the winter. He will again take charge of a crew which will be put to work drilling deeper the No. 3 well, as it is the intention of the B.P. company to endeavor to "bring in" this well by every known means, and to drill, if necessary, to 5,000 feet, as the officials feel that the many indications found at this hole all prove that the precious fluid is only just below.

With regard to the No. 5 well, a crew will be put to work at this well immediately the pumping equipment necessary, which has already been purchased from the Fairbank Morse people, arrives, so as to obtain a full supply of water for working purposes from the Battle river.

The Western Consolidated well, north of town, will be gotten under way in a few days. Mr. Dave Credille, who was drilling for the Maple Leaf company last season, will have charge at this site, he having been appointed field manager for the newly organized company, and having decided to work with two crews right from the start. It is fully expected that with ordinary luck the "pay dirt" will be struck within 60 days, and that the oil then struck will be likely to be of a higher grade than ever.

The Interior company, who have taken over the holdings, etc., of the old Wainwright Oil Producers, are arranging to commence work on the hole at the edge of town within a couple of weeks, and from then on, every effort is to be made to bring in this well in the shortest time consistent with safety.

In addition to the above, the Maple Leaf Co., with their big holdings at Fabian, have started this week on this season's work, and Mr. Roy Williams, the managing director of the company arrived on Monday accompanied by two of the best known drillers in the States. These are Messrs E. Batt, of Los Angeles, Calif., and H. Steel, of Texas and are both highly spoken of by Mr. D. Credille, who was in charge of this company's No. 1 well last year.

A very pleasant surprise awaited Mr. Williams, for upon opening up the well, it was found that something like 50 to 60 million feet of very wet gas was blown from the hole for over two hours, and she has now settled down to a steady flow of around ten million feet of gas which is so heavy in gasoline content that it is presumed there is nearly a gallon of liquid for every 1,000 feet of it. The rock pressure is between 850 and 900 pounds per inch. The drillers both like the well to well-known wells in the States and also to the Royalties well of the Imperial Co. in the Rogers field down south, the casing head gas being of a very high gravity and promising a big thing to the company.

It is Mr. Williams' intention to give the No. 1 well a thorough test, and then to immediately spud in the No. 2 hole, and for this purpose two new drilling outfits are on the way and it is hoped to unload them at Fabian at the end of this week.

Light Blues Again Win Annual Boatrace

On Saturday last, over the famous "Thames" course from Putney to Mortlake, the annual boatrace between Oxford and Cambridge universities was rowed in very boisterous weather. Sea was the water that the Oxonians' boat shipped off much water that the crew were forced to abandon the contest after about two miles of the four and a half had been rowed, and Cambridge completing the course in 21 minutes, 51 sec. were declared the winners. This was the 77th year of the race, which has been contested annually except during the war.

BROAD-CASTING ALBERTA GOVT TALKS

The publicity branch of the provincial government is now broadcasting each week, from the broad-casting station of the Edmonton Journal, instructional talks on the province of Alberta. Three of these talks have now been given. They are broad-cast each Thursday evening at ten o'clock.

WHEAT SHIPMENTS

Wheat shipments from the Alberta divisions of the two transcontinental railway companies for the 1924-25 season have totaled to date approximately 58,861,000 bushels. Making allowance for the shipment of wheat from Saskatchewan points on the Alberta divisions, the total for Alberta would be approximately 48,000,000 bushels. The largest shipments have been made from the Lethbridge division which comprises the greater part of southern Alberta and from which division the wheat shipments have totaled to date 20,400,000 bushels.

Old methods. To-day, if the transportation service is obstructed or the power and light plants go out of commission, we simply sit down and wait for them to resume. If storms interfere with communication, we go without our news, many business operations come to a stop and we limp along until things are fixed up again.

When we consider the maximum of convenience that is ours and the corresponding debt that we owe to the developers of public service as we know it, there should sink into our consciousness an appreciation that should cause us to be exceedingly lenient in our criticism of temporary inconveniences and to be deeply tolerant and generous in our attitude toward all men who are taken for their promotion and progress of the things that are essential to a happy social and economic environment.

BIG CROWD ENJOYS NEW DRAMA BY WAIN. DRAMATIC SOCIETY

(By Mr. N. S. Kenny)

A large appreciative audience was in attendance at the Elite Theatre on Wednesday evening last to witness the presentation of Mr. R. Dunsmore's new play by the members of the Wainwright Dramatic Club. The play which was written by Mr. Dunsmore expressly for the club, consists of three acts; and the author had with evident purpose left it titleless, that the patrons at its initial production might be afforded the opportunity of suggesting an appropriate title.

Mr. Dunsmore has devoted a great deal of his time, during the past three years, to promoting and presenting plays for the entertainment of the Wainwright public, and was instrumental in organizing the Wainwright Dramatic Club, of which he has since acted in the capacity of director. So imbued did he become in this work that, during his leisure hours, he launched out on the composing of plays as a pastime and in this new venture we believe he has demonstrated a large amount of inherent talent.

His first production, "A Little Bit of Color," was presented to the public at Wainwright and Vermilion about two years ago and was particularly well received on each presentation and in his latest play which was given last week for the first time the author has revealed a wide creative power, a vivid imagination and a large amount of literary ability. The plot is exceedingly well planned and maintained and the very close of the last act is the audience afforded an opportunity of forcing the outcome. The play is resplendent with dramatic incidents which have been wrought to a very high pitch by the author, who has also interspersed the play with sufficient humor that the dramatic scenes do not prey too heavily on the nerves of the audience.

On producing two plays such as those written by Mr. Dunsmore, he is to be congratulated on his success and had the author more time to devote to this work, we predict for him a name amongst the foremost writers of the shorter dramatic plays. The two plays already produced by Mr. Dunsmore, with some slight strengthening and correction of discrepancies, which is necessary to make always, in plays presented from the pen of the author, if published, will we feel certain prove popular and in demand by those wishing to present amateur plays of this class.

In the presentation of the play, the three leading parts were taken by Mrs. Washburn and Messrs. Dunsmore and Huntington. Mr. Dunsmore as Danny Calvert in the first act and thereafter masquerading as the butler (until at the end of the play he assumes his original character) and Mrs. Washburn, as Mrs. Calvert throughout, both exhibited a rare ability in dramatic acting in the various situations requiring a supreme effort. Both showed a familiarity with their parts and an excellent interpretation of the characters. Mr. Huntington, whose ability as an actor is already well known to our readers, took the part of Dick Kearns, the villain, which is one of the most difficult characters to represent in any play. To the audience, it would appear that he did not have his part sufficiently memorized to enable him to devote the necessary attention to the interpretation of the character he was delineating with the result that he did not exhibit that smoothness of demeanor so essential in the character he represented.

Of the minor parts, we would make special mention of Mrs. Wallace, Mrs. Courier, Miss Vera Stuart and Mr. Stuart. Mrs. Wallace as Libby Ann Perkins, maid in the Calvert home, displayed a familiarity with the part she was acting to the satisfaction of the audience. Mrs. Courier well demonstrated that her ability would warrant her making a success in a much heavier part than that assigned to her in this play and Miss Vera Stuart, though appearing for the first time, gave evidence of an aptitude for such work. She portrayed the character of an unspoiled, dependable, lively young girl whose confidence in the sanity of her foster-mother could not be shaken when others had been misled into believing her insane. Mr. Stuart, as Peter Washington, the negro, was certainly in his element and upon him devolved the duty of introducing almost the entire humor of the evening. Though perhaps at times maintaining the fun to such an extent as to detract the attention of the audience at the expense of the other players, we believe that the younger element in the audience

Presbyterian Vote Here Reversed From Formerly

The conclusion of the Presbyterian membership in towns under the federal act shows that the voters favor the United Church of Canada taking over all the property holdings of the old Presbyterian Church, and is a distinct reversal of the vote taken under the provincial act when a majority of vote proclaimed against going into the United Church. The latest voting shows 32 in favor of the Act and 23 against. Possibly another vote will be demanded as allowed by the Act to settle the matter of this congregation yet entering into the United Church.

DEAD MAN GIVES LIFE TO CHILD

LILLE, France.—The transfer of a vital, healthy-giving gland from a dead man to a dying girl was successfully accomplished here today, and the girl may live.

The gland was removed from the body of Oliver, the notorious bandit, who was guillotined just before the operation. It was transferred to a five-year-old girl dying of paralysis. Doctors declared the operation highly successful, and believe the girl will recover.

A TRIBUTE TO CANADIAN BEEF

A tribute to the excellence of Canadian cattle that are shipped to Great Britain appears in a recent issue of the "Review of the River Plate," published in the Argentine Republic. The Canadian cattle, the writer states are finished on grain and their flesh is of better flavour than Argentine alfalfa or grass fed cattle. The Argentine's beef, he points out has a splendid appearance but it does not equal in thickness or flavour the Canadian grain fed bullock.

MILLION-BUSHEL SHIPMENT POINTS

Four points on the Lethbridge division of the C.P.R. shipped more than a million bushels of grain each in the shipping season of 1924-25. These points were Vulcan with 1,135,000 bushels, High River with 1,032,000 bushels, Nanton with 1,029,000 bushels and Cardston with 1,000,800 bushels. The total shipments of the division to March 1, were 22,500,000 bushels of which 17,759,000 bushels was wheat.

Owing to the fact that Mrs. O. W. Crowe left on Tuesday for Vancouver. She was accompanied by the younger element in the audience

Another Newspaper Is Lost To The Province

"Commencing" next week, all paid-up subscribers to the Irma Times will be sent the Viking News, and The News solicits news and advice from this district. Failure in requests for renewal, and the falling off of advertising patronage prevents the Times from continuing. The above article appears in the latest (and last) issue of the Irma Times, and goes to prove the shortsightedness of the merchants and business men of our sister town in not supplying the necessary support to keep their finest community builder on its feet!

HIGH SCHOOL PARENTS MEET SCHOOL STAFF

On Friday evening last, at the invitation of the school principal, the parents and guardians of high school pupils were present in the school hall for the purpose of hearing an explanation of the different points in the changing curriculum, and talking over other matters connected with the conduct of the high school generally. The audience consisted mostly of ladies (apparently the "daddies" were not sufficiently interested) and a half-dozen men, and of these only two or three had any questions to ask. It was clearly understood, however, from the remarks made by the principal, that the aims of most of the children passing at the departmental exams in June will be placed upon the parents to enforce a steeper and continuous study of the home-work given the pupils to accomplish.

ALBERTA LOSS IRRIGATION SCHEME MAY BE MILLIONS

LETHBRIDGE—General approval is given the Widstoe recommendation for developing the 105,000 acre Lethbridge Northern irrigation tract built under provincial guarantee. The Alberta government guaranteed the scheme up to \$5,400,000 while another \$1,000,000 was voted by the federal government. It is stated that the net loss to the province over the whole period calculated to get the project on a self-sustaining basis would be approximately one million dollars, providing the proposals of the Widstoe report are adopted and prove workable. Dr. Widstoe, in his report expresses absolute faith in the ultimate success of the project providing the holdings are reduced colonization accelerated and production intensified. He says the tract has every chance of success if given a chance.

The report is likely to form the basis of the new irrigation policy of the government, "machinery for carrying out of the same being introduced this session of the legislature."

The expert's recommendations follow: Extension of the terms of repayment under the bond guarantee over a period of fifty instead of thirty years. Maximum capital charges should be \$55 an acre, payments on this not to begin until January, 1926, this meaning, in effect, a moratorium for this year.

Construction charges not to exceed \$2 an acre for first ten years, and within "five years" this means that the annual irrigation charges should not exceed \$3 per acre per year. It is believed the farmers by diversifying their crops will be able to meet those rates.

Holdings should not exceed 160 acres. Any holdings in excess of this should be turned over to the provincial government for sale at reasonable prices for colonization purposes.

Of the other actors, their parts were of a minor character and although several of them showed a certain amount of dramatic ability, we refrain from commenting on them individually as otherwise our comments would be on a very long list. Suffice it to say that all present thoroughly enjoyed the evening and the public will look forward with expectancy to the next appearance of the Wainwright Dramatic Club.

MRS. W. BRUNKER ADDRESSES W.I. ON HOME ECONOMICS

The following is a paper given by Mrs. W. Brunker at the last meeting of the local Women's Institute:

Home Economics is a subject which is very widely discussed so that the housewife will learn to understand the value of balanced meals and the proper diet for adults as well as children.

To find out the different values of food, we should their composition, structure and characteristics. All meats, fish, sea foods, cheese, eggs, milk, etc., contain protein in large quantities. Milk, cheese and some meats contain fat or energy producing qualities. Green vegetables contain a great amount of carbohydrates in the form of sugar and starch.

Then there are several foods which contain vitamins that are very essential to good health. The vitamins are divided into four classes—Vitamin "A" is found in milk and cream, a small amount in butter, spinach and eggs and leafy vegetables such as chard, greens and lettuce.

The only meats containing an appreciable amount of this are kidney and liver which are not found often enough on our tables.

Most vegetables are rich in vitamins A and B, as carrots, beans, sweet potatoes, etc.; and also in fruits such as oranges. Tomatoes, the king of vegetables, contain vitamins A, B and C. Vitamin D is found in cod liver oil in both its raw and manufactured states, and let me repeat—don't forget milk, especially for children and young people. Milk is the one perfect food designed for that purpose alone.

But how can the body obtain substances essential for its nourishment if we peel our vegetables, and then, as of that were not enough, give them a long in a full kettle of water which we later pour down the sink? As a prominent American dentist said in the concluding remarks:—"If the drain pipes had a digestive apparatus it would be most perfectly nourished for it gets the real body-building material while our bodies get the refuse!"

When cooking, put as little water on vegetables as they have been thoroughly washed as possible, so that they will practically stew in their own juice. Where this is not possible use the liquid for soup, or make a cream sauce or gravy to serve with the vegetables and all the food value will be retained.

If we would eat less meat, especially fried meats, and drink less tea and coffee, we would be far healthier. I do not wish to infer that meat is not a good food in the diet. On the contrary it contains a lot of protein, and for those at strenuous work meat is necessary as well as vegetables and fruit.

The housewife will carefully study her own particular family's needs; for instance if a heavy meat course is being served, a light soup, such as broth or consommé should be served as an appetizer, a vegetable or salad which does not contain protein should be given and a light dessert. If soup is to provide the main dish in light lunch, it should be made of stock of beef or chicken, with vegetables added to supple salt; while if it is thickened with oatmeal, barley or macaroni the food value is greatly increased. Soups are invaluable in the diet, in that they afford away to use left-over vegetables and also obtain the juice from such meats as chicken, beef, etc.—the best in the meat.

Soups and cereals are especially good for children, a couple of good posters for placing in our schools could be made from cuttings from magazine to represent the "children's friends"—a bottle of milk, brown bread, fruit, cabbage, open windows, clean hands and a tooth brush. "Children's foes" could be shown by fried pork, coffee, tea, cheap candy, closed windows, three-in-a-bed, and late hours.

A variety of nutritious dishes may be prepared by using milk in custards, puddings, beverage, cream soups, and soups, or combined with potatoes, vegetables, macaroni, etc. A quart of milk contains the same energy value as 8 eggs, 2 lbs of potatoes, 1/4 lbs of beef or 1/4 lbs of cheese. If the milk is pasteurized, the addition of orange juice or tomato to the diet of infants and small children will supply what has been lost by pasteurization.

Cereals, which are made mostly of wheat are best. If we are more brown or whole wheat bread and muffins full of fresh fruit especially oranges, plenty of green vegetables—preferably raw cabbage and tomatoes—and drink at least a quart of milk each day, we would all be far healthier and run less chance of contracting diseases.

Large Numbers Attend Chevrolet Demonstration

A large number of town and country folk, to the tune of nearly 125, were in attendance at the demonstration of the new Chevrolet car, which was put on by the local agent, Mr. A. Dwyer, on Friday last in his garage at Winnipeg. The car, exhibited by another expert very thoroughly and clearly demonstrated the salient points of the car, and answered questions regarding different points in very able and concise manner, all present feeling that the demonstration was worth while and the knowledge gained a real value.

PURE SEED OATS NOW AVAILABLE

The provincial government co-operative seed plant at Edmonton has a considerable quantity of registered seed oats available at prices now ranging from 75 cents to \$1.00 a bushel. It is possible that these prices may be higher, and farmers in Alberta are urged to make their applications for seed oats at once, as a large number of enquiries for these oats is being received from outside the province, and the government is anxious that Alberta farmers have the first opportunity of securing them.

Dates have been set for the corn show being planned by the Lethbridge board of trade for the coming autumn. These dates will be November 17 and 18. Corn has come to be a substantial crop in southern Alberta.

NEW PROVINCIAL ACT HAS BEEN DRAFTED BY GOVT

Power to assist new industries by means of fixed assessments on improvements only, is granted to municipalities in Alberta under the terms of a new provincial act, the draft text of which was furnished by Attorney General J. E. Brownlee.

The fixed improvement assessment, however, shall not be less than 10 per cent. of the actual value of the improvements or of the approximate cost of such improvements as agreed upon between the person to whom the bonus is granted and the municipality. The fixed improvement assessment which may be granted as a bonus to any new industry for Alberta, in addition to being limited to 10 per cent. of the value of the improvement shall also extend for not longer than twenty years, shall not be renewable, and the clause provides, "shall not apply to or affect any tax upon land apart from the value of the improvements thereon special taxes, business tax, or any other tax other than a tax on improvements."

There are lots of salads made of chicken, lobster, fish, cheese, eggs, etc. that can be well substituted for meat in the diet; while there are innumerable vegetable salads that make it doubly healthy and nutritious addition to any table. Fruit salads are always a favorite and make a valuable vitamin food. Another word on vegetables. They are usually grown in everyone's garden and are comparatively cheap and should therefore be utilized in some form at every meal. There are several which can be kept for use all winter while there are numerous dried vegetables such as peas, beans, and lentils which are also very rich in food values and can be well substituted for meat; this being especially the case in the matter of beans which contain 1750 calories to the pound.

Many people hold the mistaken idea that when sick they must go to the drug store and obtain vitamins in the form of medicines, when they can cure themselves by using fruit, vegetables, yeast, etc., which contain these vitamins, and which so far, it has been found impossible to isolate to compound into any mixture. Practically the only preparation that does contain what it claims is yeast, although no doubt yeast has been much overpraised. Why should we eat yeast cake for which we must cultivate a taste when we can eat the fruit and vegetables for which we have a natural taste already. Far better from every standpoint to buy vitamins in their natural form at the vegetable market than at the drug store in manufactured form. Therefore use more of the natural foods, and cook them to spare a time as possible; and above all—"Don't let the drain pipes be better nourished than your own family!"

BARRE, SON OF KAZAN

James Oliver Curwood

A LOVE EPIC OF THE FAR NORTH

"BARRE, SON OF KAZAN," a Vitaphone Picture, With Wolf, the Wan Dog.
An Adaptation of This Story
Copyright, by Dow Loday, Page & Co.

SYNOPSIS
Pierrot, the halfbreed trapper, and Nepeese, his daughter, were hunting when they saw Barre. Barre was half-dog, half-wolf, but it was the wolf in him that Pierrot saw and fired but his aim was bad. Barre had just seen Sekoosie, the ermine, all but kill a partidge, and he himself finished the bird and feasted upon it after he had frightened the ermine away. The dog was only a few weeks old and was having his first exciting adventures.

CHAPTER V—Continued
"Uchi Moosie!" gasped Nepeese, in her Cree.
Pierrot caught the rifle from her. "Diab! A dog—a puppy!" he cried.
He started on a run for Barre. But in their amazement they had lost a few seconds and Barre's dazed senses were retreating. He saw them clearly as they came across the open—a new kind of monster of the forest! With a final wail he started back into the deep shadows of the trees. It was almost sunset, and he ran for the thick gloom of the heavy spruce near the creek. He shivered at the sight of the bear and the moose, but for the first time he now sensed the real meaning of

standing so that a last glow of the day fell upon her face. Barre did not take his eyes from her. Above his pain there rose in him a strange and thrilling fascination. The girl put her two hands to her mouth, and in a voice that was soft and plaintive and amazingly comforting to his terrified little heart, cried: "Uchimoo — Uchimoo — Uchimoo!"

And then he heard another voice, and this voice, too, was far less terrible than many sounds he had listened to in the forests.

"We cannot find him, Nepeese," the voice was saying. "He has crawled off to die. It is too bad, Come."

Where Barre had stood in the edge of the open Pierrot paused and pointed to a birch sapling that had been cut clean off by the Willow's bullet. Nepeese understood. The sapling, no larger than her thumb, had turned her shot a trifle and had saved Barre from instant death.

She turned again and called:

"Uchimoo — Uchimoo — Uchimoo!"

Her eyes were no longer filled with the thrill of slaughter.

"He would not understand that," said Pierrot, feding the way across the open. "He is wild—born of the wolves. Perhaps he was of Koomo's, lead-bitch who ran away to hunt with the packs last winter."

"And he will die—"

"Ayetun—yes, he will die."

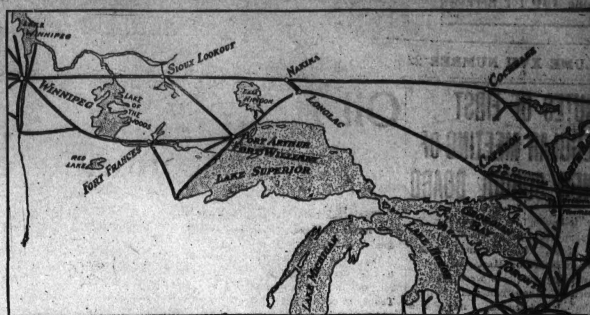

But Barre had no idea of dying. He was too tough a youngster to be shocked to death by a bullet passing through the soft flesh of his fore-leg. That was what had happened. His leg was torn to the bone, but the bone itself was untouched. He waited until the moon had risen before he crawled out of his hole.

In this humor Barre came, an hour later, out of the heavy timber of the creek bottom into the more open space of a small plain that ran along the foot of a ridge. It was in this plain that Choomisew, hunter Ochoomisew was a huge snow-owl. He was the patriarch among all the owls of Pierrot's trapping domain. He was so old that he was almost blind, and therefore he never hunted as other owls hunted. He did not hide himself in the black cover of spruce and balsam tops, or float richly through the night, ready in an instant to swoop down upon his prey. His eyesight was so poor that from a spruce top he could not have seen a rabbit at all, and he might have mistaken a fox for a mouse.

Even if Barre could have seen and at the dark brush, and had discovered Ochoomisew, ready to dart from his

(Continued on page 5)

Bringing East and West Several Hours Closer Together

A FURTHER cut in running time between Winnipeg and Toronto has been announced by Canadian National officials at Winnipeg in connection with train schedule changes which became effective recently. Last year, with the opening of the Long Lac cutoff connecting the north and south main lines of the Canadian National Railways in northern Ontario, five hours was added from the running time of the Winnipeg-Toronto service, and with the new train now running, another five hours' reduction has been made. The National now leaves Winnipeg at 5:30 p.m. daily and arrives in Toronto at 7:20 a.m. From Toronto, the train leaves at 8:45 p.m., arriving in Winnipeg at 8:45 a.m. of the second day, making a 37-hour run. In each case passengers between the eastern and western cities will lose only one business day in their journey, as the train leaves after business hours and arrives at its destination in time for a full day's work. Equipment of the train will be the same as formerly, including express and day coaches, lunch counter, smoking car, tourist and standard sleepers, and radio observation car.

A Wonderfully Interesting and
Practical Course of 20 Lessons
by Mail on

**COOKERY ARTS and
KITCHEN MANAGEMENT**

To Every User of

MAPLE LEAF FLOUR

FOR BREAD, CAKE & PASTRY

In addition to the excellent baking results which Maple Leaf Flour always guarantees, you can now secure in every bag a coupon to apply on the valuable Free Course on Cookery Arts and Kitchen Management which contains all the essentials of a college course in Domestic Science.

This course is so thorough and practical that it requires little or no explanation outside of the lessons which are mailed to you each month. But it is so original it will set you thinking and you will undoubtedly decide to ask Anna Lee Scott to help you with actual problems which arise in connection with household management, or in preparation of special dishes for special social affairs.

You Can Ask Anna Lee Scott any time during the five months you are taking the course for advice about any special recipe you may want—about any cooking problem—about the conduct of any social affair—in fact any inquiry pertaining to the preparation and serving of food for any occasion will be answered personally by Anna Lee Scott without charge.

Think what a wonderful service this will be. It is absolutely free to every woman who sends in the four coupons entitling her to membership in the Maple Leaf Club.

**HOW TO JOIN THE MAPLE LEAF CLUB
and Enroll for this Valuable Course.**

Coupons will be found enclosed in every bag of MAPLE LEAF FLOUR (24 lb. bag—1 coupon; 49 lb. bag—2 coupons; 98 lb. bag—4 coupons.)

Send only four coupons addressed to the Maple Leaf Club, Maple Leaf Milling Co., Limited, Winnipeg, Manitoba, and you will be enrolled without one cent of expense as a member of the Maple Leaf Club and receive the first four lessons in the course. Other lessons will be sent in four monthly installments—4 lessons each month. (20 lessons altogether.)

PUBLIC SHOOTING GROUNDS.

Public shooting areas have now been established in Alberta and other provinces by the federal government. In Alberta there will be 32 of these areas, chiefly surrounding lakes, it is expected. The game commissioner of Alberta has not yet received official information as to the location of these areas.

HIGH RIVER'S HORSE SALE.

A huge auction sale of horses at High River, which may become an annual event, was instituted last week the total amount realized at the first sale being \$35,000, with \$445 paid for a team of Percherons. There were 458 horses entered for sale.

WAINWRIGHT, ALBERTA APRIL 1st, 1925

MR. MERCHANT

THINK IT OVER

Wm. Weigley, Jr., the chewing gum king in explaining the rapid growth of his company, said all was due to the advertising. "But," interrupted a friend, travelling with him to the Pacific Coast, "you have already built up a remarkable business. Why not have some of this advertising money and run along on momentum for a while?" "Well," Mr. Weigley said, "we have had a fine, fast trip from Chicago so far. How much progress do you think we would make if they took off the engine?"

SELLING ALBERTA TO THE WORLD

The executive of the Alberta Press Association in a recent bulletin to members makes the statement that "problems confronting most of the communities in Alberta would largely be solved if the people were sold on their own community." The idea is amplified further in the following sentence: "If we had one hundred per cent local pride in our own communities, Alberta would certainly be sold to the outside world." There is truth in these observations.

In the world of men and affairs the down-at-heel, slipshod, frowsy individual makes a poor sale prospect for the reason that it is evident he does not consider himself worth anything. His estimate of himself, as indicated by the careless way in which he treats himself, is the estimate the world will have of him.

And the world is not far wrong. The man of woman who has reached that point in a downward career where personal appearance ceases to be a factor of importance in life, is coming close to zero point in the estimation of others.

What is true of individuals in this connection is true also of communities. If there is one thing more than another that has "sold" Calgary to thousands of casual visitors and made them good advertisers and boosters for this city, it is, as a fact that Calgary citizens have kept their city clean and well shown; that they are "sold on their own city" by the way they have maintained the city and its services first class shape. If they desire to keep the world "sold" on Calgary, they must keep their past good record in community service in all directions—hereafter.

But there is no reason why Calgary should be the only show community of the province of Alberta. The small

city water tank, one elevator hamper has as much right and as much opportunity to be a one hundred per cent show spot. It may be a little more difficult for its residents to persuade themselves to be "sold" on it, but every move in the direction of the improvement and beautification will make the task easier. Trees, vines, shrubs, flowers and well kept gardens with the wise use of paint, will quickly transform hundreds of these desert hamlet eyesores into little Eden gardens. Community effort will accomplish all this with a minimum cash outlay, coupled with a generous offering of elbow grease and perspiration.

This is the season of year when it is easy to start these community selling campaigns. The Board of Trade and like organizations can be notable performers in the local selling campaign. What they do for the large centres the residents of any and every small centre in the province may do if they set their minds to the task. Every country school ground, every church and cemetery ground throughout Alberta, provided the people are willing to sell themselves to the job, can be made an important factor in the success of the province to the world at large. Now is the time to get busy!

HONORS ACCORDED

TO DR. SAUNDERS

The message from Ottawa that Dr. Charles Saunders has been awarded the gold medal of the Royal Society of Canada for his discovery and development of Marquis wheat will be received with much satisfaction in Western Canada. Western Canada more than any other portion of the world, has benefited by the production of this wheat. This part of the Dominion has a special interest in Dr. Saunders. It will please the citizens of the West to learn that this recognition has been granted to him.

The honors will be attached to the name of the doctor of Marquis wheat has of course been known. But a man cannot live by honors and by gold medals alone. This is a very practical world. However great and helpful a man's achievements, he cannot go to his grocer, or to his landlord, saying "I brought great benefits to Canada and I have the gold medal of the Royal Society" and get his landlord to accept that in lieu of rent, or his grocer to take it instead of cash.

Hence the public indignation when the people of Canada discovered that Dr. Saunders had been retired from the government's service upon an annuity of \$1,200 a year.

Fortunately, it is now proposed to remedy this condition and to grant him a pension more in keeping with the services rendered by him to Canada.

NEWSPAPERMEN'S

CONVENTION

The annual convention of the Alberta and British Columbia Press Associations is to be held in Edmonton, Alberta, this year, on August 28 and 29.

UNIVERSITY REPORT

In 1924 the University of Alberta had 1,341 registered students, according to the annual report of that institution. Of these 908 were men and 433 women. These of British birth were 905 of which 700 were Canadian and 220 Albertans. Those of foreign birth totalled 250, of which 1923 were Americans. There were 186 not specified. The registrations in the various faculties were as follows:
Arts and sciences 738, applied science 117, medicine 200, law 109, agriculture 158, pharmacy 46, correspondence courses 94, Bachelor of Divinity 3 nursing 17. Total 1,482, minus 141 in double courses, leaving the net total registrations at 1,341.
The University received during the year a total of \$255,000 from the Rockefeller Foundation of which \$25,000 was interest on the endowment of \$500,000.

ALBERTA COAL FOR ONTARIO

Arrangements are now being made for the shipment of 100,000 tons of coal from Alberta mines to the Ontario market, under special arrangements with the railways, the provincial governments of Alberta and Ontario and the federal government.

STATION CNRW, WINNIPEG, "ON THE AIR"

RADIO Station CNRW, operated by the Canadian National Railways at Winnipeg, Manitoba, has found an admirable studio in the Concert Room, located on the seventh floor of the Fort Garry, the company's hotel in the western Gateway City, according to options expressed by listeners in all parts of Canada and the United States. The acoustic properties of this room lend themselves splendidly to microphone transmission; plenty of space is available for properly placing musical instruments of any size, even to brass and pipe bands, symphony orchestras and large choirs, and the broadcast which are conducted by remote control through station CKY, have "gone across" splendidly since this location was secured. Photograph shows the scene in the studio on the night of Thursday, January 22, when the photographer interrupted the broadcast for a few minutes with his "Look pleasant, please."

From left to right the photographer shows The Winnipeggers Male Sextette, who contributed vocal numbers. R.H.K. at the

SHORT COURSE ON BACON HOGS

The indications are for a good attendance of farmers at the short course on bacon hogs to be held at the Dominion experimental farm at Lacombe on March 26 and 27. This is being held under the auspices of the Dominion livestock, Dominion experimental farm, culture and faculty of agriculture, of branch provincial department of agriculture of the university. The program of the first day will include discussion and demonstration of the market type of hogs in the afternoon. On the second day there will be discussion and demonstration on the type of breeding hogs in the morning and inspection and discussion on bacon carcasses in the afternoon.

BULLETIN FROM PROVINCIAL GOVT.

Hutterites Buy Land

A section of land in the vicinity of Magrath, south-west of Lethbridge has been sold to a colony of Hutterites for \$25,000 cash or \$40,000 an acre according to a report from Magrath.

Form Colonization Association

The Central Alberta Land Settlement Association has been formed as a result of a conference on immigration held the past week at Edmonton under the auspices of the Edmonton Board of Trade, at which 100 delegates were present including prominent railway and government officials.

Corn Growing Develops

Greater acreage than ever will be in corn in Southern Alberta the coming season, it is reported. Last year the acreage in the southern part of the Province was about 50,000 acres and it is expected this will be doubled. Lethbridge Board of Trade plans to hold a corn show in that city in the fall.

Veteran Missionary Honored

The Cross of the French Legion of Honor was conferred with great dignity and ceremony during the past week upon Bishop Grouard, veteran Catholic missionary in the north-west by F. C. Rouquette special envoy of the President of France, who came from France for the purpose. The honor was conferred for the long years of service among his fellow countrymen in this country given by Bishop Grouard, who is now residing at Grouard, north of Edmonton.

Fourth Creamery Short Course

The fourth short course for creamery workers will be held at the University of Alberta, March 30 to April 17. The previous courses have been very well attended, the enrollment at the last reaching 29. Students from 31 points in the province have attended these courses.

Registered Seed Available

Alberta farmers who have not yet secured their seed for the coming season are reminded that pure registered seed grain is obtainable at the government seed cleaning plant at Edmonton where the seed is cleaned and graded and marketed co-operatively for the producers.

Report of Alberta Gaols

Reports for 1924 covering the administration of the two provincial gaols show that there was a net decrease in the average daily population of the gaols over the previous year. The Lethbridge gaol had a daily average population of 122, an increase of 11 over 1923 while the institution at Fort Saskatchewan had an average daily population of 161 or a decrease of 22 over 1923. The cost per capita for the year for the prisoners at Lethbridge was \$177.63 which compares with a per capita yearly cost of \$309.10 in 1923. The per capita cost for the year at Fort Saskatchewan was \$234.55.

At the end of 1924 there were 138 prisoners in the Lethbridge gaol and

123 in the Fort Saskatchewan Institution.

Reaps Good Returns

J. H. Anderson, farmer near Magrath Alberta, reports that his income from a forty-acre field of wheat in the 1924 season was \$2000 or \$50.00 an acre.

Annual Feeders' Day

The annual feeders' day held under the auspices of the animal husbandry branch of the college of agriculture at the University, will take place Saturday April 18 the last day of the Edmonton spring stock show. Those who attend are asked to meet at the University farm building at 10 o'clock. Results of livestock feeding experiments during the past six months will be available for the benefit of those who take in the lectures.

MUNICIPALITIES HAVE DONE WELL

Sixty-eight municipalities in Alberta during 1924 were able to finance their operations, all but 29 repaid the borrowings without a cent of borrowed money according to the annual report of the provincial department of municipal affairs which was presented to the Legislature this past week. Out of the total of 169 municipal districts in the province, only eight had outstanding debenture indebtedness, which totalled \$61,000,000. Of the 101 districts which had to borrow money for current year operations, all but 29 repaid to borrowings for the year. The districts having met all the debenture payments falling due in 1924.

The revenue of the department was slightly increased from 1923, totalling \$2,332,534.55, which, however, was short of the estimated revenue by \$505,219.86, chiefly made up by the disallowance of the mineral rights tax.

VALUE OF FARM LANDS

According to a bulletin issued by the Dominion bureau of statistics, the average value of occupied farm lands in Alberta is placed at \$25 an acre, compared with \$24 for 1923. The highest average is British Columbia with \$9 an acre. Alberta has the lowest average price per acre of occupied farm land in all the provinces of Canada save Saskatchewan, where the average value is estimated at \$24 an acre. Manitoba's average is \$28 an acre.

GOOD PRICE FOR LAND

A price of \$83 an acre for a farm near Claresholm, Alberta was reported in a sale made during the past week. This is the highest price paid in that district for some years, according to the Lethbridge Herald.

INDIAN RESERVE LAND SOLD

A township of land in the Saddle Lake Indian Reserve, 45 miles north-east of Vegreville, was sold the past week for a total of \$187,200 of which half will go to the Indians of the reserve, in cash, and the other half in the reserve fund in trust for the Indians.

Be up-to-date! We have score cards for Progressive Mah Jong at the Star office.

THE EXAMINER'S WEEKLY REVIEW OF PROV. MARKETS

CATTLE

BEEF—Edmonton prices firm during the week, and the active demand has strengthened prices on females. Choice heavy and light steers: \$6.50 @ \$7; good \$5.75 @ \$6.25; medium \$4.75 @ \$5.50; common \$4 @ \$4.50. Choice heifers: \$5.50 @ \$6; good \$5 @ \$5.50. Choice cows \$4.50 @ \$5; good \$4 @ \$4.50. Medium \$3.50 @ \$4; common \$2.75 @ \$3.25; canners \$2 @ \$2.50. Choice bulls \$2.50 @ \$3; medium \$2 @ \$2.25; canners \$1.50 @ \$1.75. Veal calves \$7 @ \$8; common and heavy \$3.50 @ \$4.50. Feeders STOCKERS—Choice heavy dehorned feeders make up to \$5.50; plain feeders down to \$4; stocker steers \$3 @ \$4.25.

HOGS

Edmonton prices during the first of the week were up to \$13, but prices now seem easier and sales are \$11.50 @ \$12.75 with the usual premium on the bacon grade.

SHEEP

Edmonton sheep prices hard to quote owing to light receipts. Choice lambs around \$14; yearlings \$13; fat ewes around \$10.

GRAIN

Since the recent drop in prices again has been holding a fairly steady quotation. Wheat is being governed to some extent by reports of crops in the winter wheat states, which is of course receiving the varied reports which cover different areas and make the aggregate hard to arrive at. Indications are that it will be late spring on the prairie.

HIDES

General tone of market weak and Alberta buyers on last week's basis city deliveries.

HAY

Unfavorable weather continues to add strength to general tone of hay market without advancing prices to any great extent; surplus supplies of first quality hay in some districts getting scarce; it will be hard to get cattle through without getting them in poor condition, or actual loss, unless spring opens favorably.

POULTRY—EGGS

EGGS—Edmonton and Lethbridge quoting 30c, basis extras. POULTRY—Receipts light and fair demand for live birds; some storage coming out now; all prices unchanged.

BUTTER—CHEESE

CREAM—Alberta prices unchanged and look like holding up; production light and will be slow in developing. CREAMERY BUTTER—Market some what irregular, but sales, car lots, basis specials, reported up to 34 1/2c, and range down a cent; prices and cartons unchanged and with small surplus promptly taken. DAIRY BUTTER—Most of the make absorbed at country towns. CHEESE—Market very firm, and very little western cheese left.

Coal for Spring. A car of Marcus special kitchen coal. This coal is specially screened for Spring trade, being run over a two-inch and through a six inch screen. Plenty of good sized lumps for the heater and the smaller size is excellent for the range. Price much lower than lump Alberta Pacific Grain Co. call No. 8.

SHOPPING AT HOME

The most clever and progressive women have learned the immense advantage of carefully reading the advertisements.

Those who are more dull of apprehension prefer to wander around in different stores hunting for the special bargains and unusually attractive articles.

The up-to-date woman of today sit down and takes her paper and reads the advertisements carefully before she goes "shopping."

She has learned by experience that the merchant's methods and has the most definite feelings, is the one which makes his influence felt through his advertising.

The back number merchant does not see an up-to-date merchant.

If he did not do this he would not be advertising. Shopping at home, looking through the ads before you start out, saves time and annoyance and is sure to result in both economy and satisfaction.

It pays to read the advertisements

(Continued from Page 2)

ambush, it is not likely that he would have gone very far aside. His own fighting blood was up. He, too, was ready for war.

Very indistinctly Oohoomisew saw at last, coming across the little open which he was watching. He squatted down. His feathers ruffled up until he was like a ball. His almost sightless eyes glowed like two big pools of fire. Ten feet away, Baree stopped for a moment and licked his wound. Oohoomisew waited cautiously. Again Baree advanced, passing within six feet of the bush. With a swift top and a sudden thunder of his powerful wings the great owl was upon him.

In the stillness of night there rose a still greater thunder of wings, and for a few moments Baree closed his eyes, to keep from being blinded by Oohoomisew's furious blows. But he hung on grimly, and as his teeth met through the flesh of the old night pirate's leg his angry snarl carried defiance to Oohoomisew's ears. Rare good fortune had given him that grip on the leg, and Baree knew that triumph or defeat depended on his ability to hold

Suddenly Oohoomisew ceased his beating and launched himself upward. Like huge fans his powerful wings flared the air, and Baree felt himself lifted suddenly from the earth. Still he held on—and in a moment both bird and beast fell back with a thud.

Under those wings Baree's mind worked with the swift instinct of the killer. Suddenly he changed his hold, burying his fangs into the under part of Oohoomisew's body. They sank in to three inches of feathers. Swift as a flash Baree had been, Oohoomisew was equally swift to take advantage of his opportunity. In an instant he had swooped upward. There was a jerk, a rending of feathers from flesh—and Baree was alone on the field of battle. Baree had not killed, but he had conquered.

CHAPTER VI

Baree's fight with Oohoomisew was good medicine for him. It not only gave him great confidence in himself but it also cleared the fever of ugliness from his blood. He no longer snarled and snarled at things as he went on through the night. He was still a wandered-pupamootac the Indians call it. It is this "wander

spirit" that inspires for a time nearly every creature of the wild as soon as it is able to care for itself—nature's scheme, perhaps, for doing away with too close family relations and possibly dangerous interbreeding. Baree, like the young wolf seeking new hunting grounds, or the young fox discovering a new world, had no reason or method in his wandering. He was simply "traveling"—going on. He wanted something which he could not find. The wolfnote brought it to him.

The stars and the moon filled Baree with a yearning for this something. The distant sounds impinged upon him his great aloofness. And instinct told him that only by questing could he find it. It was not so much Kazan and Gray Wolf that he missed now—not so much motherhood and home as it

was companionship. Baree did not travel far that night. The fact that his wound had come with dusk, and his fight with Oohoomisew still later, filled him with caution. Experience had taught him that the dark shadows and the black pits in the forest were possible ambushes of danger. He was no longer afraid as he had once been, but he had had fighting enough for a time, and so he accepted circumspection as the better part of valor and held himself aloof from the perils of darkness. It was a strange instinct that made him seek his bed. He had some difficulty in climbing which he some difficulty in climbing

Singer Calls America A Musical Melting Pot

Crystal Waters Will Introduce Cycle of Native Songs

Crystal Waters, American singer, has set out to produce a complete cycle of native American songs. Miss Waters declares that jazz, considered by many the modern American music, is only part of what this country has produced in that line.

She cites the songs of the Indians, of the Vermonters, of the Middle Westerners, and of the mountaineers of Tennessee and other Southern states as further examples. "America is the melting pot of music," says Miss Waters. "We

have not only a mixture of the folk songs of all sections of our land, but also operatic strains from Italy, ballads and light opera from France, and the heavier Norse and German melodies—all brought in by immigrants.

"The most beautiful music in the world is being played and sung in New York City. The time has passed when foreigners can say with any truth that America has no musical art." "The theme song of Miss Waters' cycle is 'Somewhere in the World' (the John McCormack ballad), which the singer declares has amalgamated many American characteristics into one beautiful whole."

What the World Is Doing

(As Seen by Popular Mechanics Magazine)

Mechanical Cashier Makes Change and Admits Persons to Trains

Patrons of an elevated railway in an eastern city have been testing a coin-operated apparatus at the station gates installed to do the work of a human cashier. It automatically returns ten cents from a deposit of a quarter or a fifty-cent piece, returning the correct change and, at the same time, releasing the catch on the turnstile to permit entrance to the train. Dimes—the regular fare—also are accepted, but the machine will not handle paper money, pennies or nickels. It is believed that the device will be of aid in rush hours as passengers with the exact fare, or coins which the contrivance will change, can pass through quickly.

Wheelbarrow Bench for the Lawn Is Easily Moved by One Person

Benches for the lawn or garden are useful and ornamental but cannot be moved easily from place to place as needed. This limitation has been overcome in a new which an Englishman has invented. It

combines the features of a bench and a wheelbarrow and may be trundled about as easily as the latter article by means of so long extension handles and a wheel at the other end which forms part of the support.

Approximately 15,000,000 bananas are consumed every day in the United States.

Land Swimming Rack Teaches Right Strokes in Two Lessons

With the aid of a machine invented in England, beginners are made to be able to

learn the right swimming strokes in two lessons. The pupil lies prone on a cushion and his hands and feet are strapped to special pads. When the instructor turns a crank, the student's extremities are automatically made to perform the correct swimming motions as the rest to which they are attached are moved in the proper order by a chain-gear arrangement.

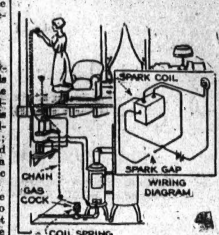

Acid-Proof Table Top

For chemical laboratories, battery service stations, and other places where acids are handled, an acid-proof coating on the table tops is almost a necessity. The following two solutions are used for this purpose: The first consists of iron sulphate, 4 parts; copper sulphate, 4 parts; potassium permanganate, 5 parts; and water, 100 parts. The second solution consists of aniline, 12 parts; hydrochloric acid, 18 parts; water, 100 parts.

Two coats of the first solution are applied hot with a brush and allowed to dry; say dried coating that has not soaked in is then rubbed off. The surface is then given two coats of the second solution and later a thin coat of raw linseed oil is rubbed on with a cloth. If the table top is painted or varnished, it should be scraped down so that the solutions will penetrate the wood. In cases where this method was used on some old laboratory tables the result was highly satisfactory. The surface turns ebony-black a few hours after the coating has been applied.

Electric Lighter for Water Heater

Many houses have a gas water heater in the basement for summer use. To light it it is necessary to go downstairs and this is rather unhandy. With the apparatus shown in the illustration, it is possible to turn on the gas and ignite it with an electric spark. The valve in the gas line is provided with a coil spring, which shuts off the gas automatically. It is opened by means of a length of furnace chain, wound on a spool that is attached to the valve as indicated. The chain is run over pulleys, through the wall into the room above, the end being fitted with a ring; a plate on the wall holds the chain up in the same manner as a furnace-damper control. These fixtures can be purchased at any hardware store. Two dry cells connected in series to a Ford ignition coil, which can be obtained at a garage. One side of the coil is grounded on the stove and the other wire terminates about 11

in, from the burner, directly above the gas holes so that after the gas has been turned on, a spark jumping this gap will immediately ignite it.

Quicklime added to benzene, in the proportion of about 3 cc. to the gallon will deodorize it. Shake well, then strain through cheesecloth.

SPRAY LAKES DEVELOPMENT MAY BE HANDLED BY POWER CO

It is now almost a practical certainty that the provincial government will not have anything to do with the Spray Lakes Power Company say advisers from Calgary.

For some very considerable time past the Labor members of the provincial government have been making much ado about this proposed scheme. All that was needed, from their point of view, was for certain legislation to be secured, and presto, it was a "public utility."

A somewhat rough jolt has been given such an idea by some common sense facts just tabled in the provincial house. To do the Greenfield government justice it made a very close investigation into the matter. It found, however, that the scheme would involve an expenditure of approximately \$15,000,000.

The question will come up at the present session of the legislature, but it is learned on good authority that the government is not prepared to recommend that the undertaking be proceeded with.

As a matter of fact in well-informed financial circles it was not for a moment expected that it would, owing to the cost and the always debatable question whether it would be a success as a province-owned utility. The very exhaustive report that was made by officers of the Ontario hydro-electric commission showed conclusively that the sanest plan would be to link up with the Calgary Power Company who have stated that they are prepared to undertake the project if the province turned it down.

Undoubtedly the expected attitude of the Greenfield government in connection with the Spray Lakes project will again give rise to the recent rumor that International Utilities Corporation is looking with somewhat tender eyes on the Calgary company with a view to acquiring control as has been the case with the Calgary Gas Company and the Edmonton Gas Company. C. J. Yorath, who was recently commissioner at Edmonton, it is stated, has been appointed Canadian representative of the New York outfit and from what can be gathered is in close touch with the Calgary Power Company, notwithstanding the denial a few days ago that there had been no negotiations whatever between the two companies.

RURAL CREDIT SOCIETIES DOING WELL

Rural credit societies in Alberta appear to be in a healthy state, according to reports available in the provincial government offices. With about \$900,000 outstanding collections during 1924 amounted to about 60 per cent which is considered a good showing. There are now 28 rural credit societies in the province. The government recently was able to secure for the societies a reduction on interest rates to 6 per cent.

Items of Local Interest

BORN.—To Mr and Mrs E. E. Jackson, at Greenshields, on March 30th a girl.

According to Master Johnnie McQuaker, the gophers are now out enjoying their Spring gambols!

We regret to learn that owing to the continued serious illness of his father, Dr. Middlemass was again called to the coast. He left with Mr. Middlemass and the children on Saturday train.

For the best domestic coals try Penn lump or stove, Black Gem, or Humberstone. Bright and clean. Stores well and burns well. Imperial Lumber Co. Mel Fraser, agent phone 1-0

Mr and Mrs J. Rutledge are moving this week into their new bungalow on Main street north.

Mr and Mrs H. Kemp arrived home this week after a long vacation spent with relatives and friends in the east.

We regret to learn that one of Mrs W. Bruncker's little ones is under quarantine, and for this reason Bill is "baching" against his will!

Mr and Mrs Lusk returned last week end from Biggar, where they have been located for some time.

You'll have to have your walls repapered this Spring! Let me call and show you my new 1925 samples of wall paper, whether you want it hung or not. It's no trouble to Harry Co. field, town.

Owing to the fact that Mrs O. M. Lewis is very sick with an attack of pneumonia, her daughter Mrs Jack Lewis is here from Jasper, Alta. We extend hopes of early recovery to the sick lady.

On Thursday evening last, what proved to be a real surprise party was held at the home of Miss Myrtle Turner, when Miss Lorraine Fraser was the guest of honor. An enjoyable time was spent in cards and music.

If you are going to build anything from a doll's house to a mansion we will estimate the cost of it for you free of charge. Our free plan books are at your disposal, and the experience and purchasing power of one of the largest retail lumber companies in Canada is at your service. Call or phone Joe Welch; 57.

Building activity continues, and this week sees Mr G. Isted busy on the H. Crampton residence on Fourth avenue.

Mr and Mrs H. Lewis who have been living in town all winter, moved back to their farm at Greenshields this week.

We understand that an attempt is to be made tomorrow (Thursday) evening to re-organise the town band. A meeting is being held in the rink and all interested are asked to attend.

With the coming of Spring means more or less repairs to your buildings. We carry a full line of Beaver and plaster boards, doors, sash and windows, as well as a complete stock of lumber. Yours for service, Imperial Lumber Co., Mel Fraser, phone 1-0

This week sees several new electric pictures installed in the Wainwright hotel, adding to the appearance of the hostelry.

On Sunday next at St Andrew's church the ceremony of ordination of elders will be gone through. Those receiving this service are Messrs F. Spence, O. Elder and W. Carsell.

It will be welcome news to many to learn that Mr G. Steel has been appointed shipping agent for all eggs for the U.F.A. If wanting your eggs graded bring them in to George!

Housewives! We have a full line of Muresco, Paints, Varnishes and Brushes for your Spring housecleaning. Come in or phone 57; Atlas Lbr Co.

The Kellys have been busy for the past several days moving the big dance hall from Normandin's lake in to town. They were only just in time to gain advantage of the snow roads too!

Mr T. J. Sugars, of the B.P. Co was in town for a day or so last week before proceeding to Vancouver.

Wind and Tornado insurance—Farmers, if your barn or granaries blow down, we will repair all damage if you carry a windstorm policy. \$7.50 per \$1000.00 for three years. Town dwellings \$4.00 per \$1000 for three years. Quebec has just had an earthquake and the worst windstorm known known millions of dollars' worth of property in the States. Be prepared; insure against windstorm with Joe Welch, phone 57

What with sunshine, rain, and snow all in one day, March certainly went out in great shape. But we are forgetting—This is Spring!

Messrs Frank Fish and R. Mackay are busy installing an up-to-date, modern plumbing system at the superintendent's house in the Buffalo park.

We understand that Mr J. Telford is again investing in real estate; he purchased a small house from Mr W. Coulson last week.

Spring is coming you will need a load of Newcastle stove coal for cooking; hard, shiny and full of peep! Atlas Lumber Co. phone 57.

The Atlas yard are unloading the first cars of their Spring stock of lumber this week.

We learn that Mr S. Keene who has been living in town all winter is now leaving for his farm at Irma for the summer.

The Molyneux house is being rented to Mr W. Crowe for the summer where Bill will bachel!

You need a bright, shiny, hard stove coal for Spring; get a load of Newcastle stove coal from the Atlas yard; phone 57; \$7.00 per ton at the shed.

On Saturday next the Catholic Women's League will hold a cooking sale and tea in the office of Mr Bruncker in the Wainwright Annex, and all are invited to attend.

Try a load of our Newcastle stove coal at \$7.00 at the shed. It has no equal as a cooking coal; once you try it you will always want it. Phone 57 the Atlas yard, for a load.

BEE-KEEPERS ORGANIZE

The bee-keepers of southern Alberta held a meeting recently and organized the Alberta Bee-keepers Association. There are now nearly 200 bee-keepers in the province, and last year some 55,000 pounds of honey was produced.

CAR LOADINGS STILL INCREASING

The outstanding feature of railway traffic for the first two months of the present year, was the increase of car loads of merchandise. For the nine weeks ending February 28, the betterment in loaded cars that commodity was 12,747.

IMMIGRANTS FOR ALBERTA

The Scottish Aid society, through which the immigration to Canada of settlers from the Hebrides has been carried out, has, through the provisions of the Empire Settlement Act, purchased 30,000 acres of land north of Vermilion, Alberta, and the line of the Canadian National Railway, or which it is proposed to settle 150 Hebridean families.

VALUE OF FARM LANDS

According to a bulletin issued by the Dominion Bureau of Statistics, the average value of occupied farm lands, in Alberta, is placed at \$25 an acre, compared with \$24 for 1923. The highest acreage is British Columbia with \$96 an acre. Alberta has the lowest average price per acre of occupied farm lands in all the provinces of Canada, save Saskatchewan, where the average is \$28 an acre.

CANADIAN CATTLE EXPORT TO BRITAIN GAINS

An increase of approximately fifty percent, has taken place in the live cattle exports to the United Kingdom in 1925, as compared with the early months of the preceding year. Up to March 19, the exports of cattle in 1925 were 14,662 head; in 1924, 10,531 head; this shows a revenue to the shipping companies of \$29,240 the present year.

WAINWRIGHT, ALBERTA APRIL 8th, 1925

CLEANLINESS NEXT TO GODLINESS

The recent contract which the town authorities completed in regard to the proper scavenging and cleansing of the town in general was most assuredly a step in the right direction, but inasmuch as "one swallow never made a summer," the cleaning-up process will have to be much more thorough than the one-sided effort which the power that can be possibly put forth.

Let's have a real "Paint-up, clean-up, plant-up week!"

Let's get down to brass tacks on this proposition, and see to it that each and every individual in our town strives with every effort to so improve conditions around their own premises that we will be able to point with pride to our different holdings as being well worthy of the justifiable pride which every citizen should feel in their possessions.

The Board of Trade, the Board of Health, the School authorities, the Church organizations—all these can help very materially in the cleaning-up process which becomes very necessary in all of the smaller cities and towns, after the disappearance of the rigours of winter.

Why not every citizen arrange to beautify his premises also with at least a few trees or shrubbery? The work connected with this phase of the problem is healthy, and the benefits derived are incalculable! Let all see to it that the best features of the town are preserved, and if possible, improved upon, while the worst features are eliminated once and for all. To make a tree grow where nothing but a rubbish pile existed, before has innumerable advantages, not the least of which are the great lessening of the fire risk and the undermining of the terrors of disease in myriads of forms.

The lead taken by the Council in the outline of the contract previously mentioned (provided it is fully lived up to) has gone a long way towards assisting in making a big stir along these lines, and if every individual in the town will work to improve and beautify his own buildings, we would have a most inspiring spectacle—a whole community working to the utmost of their ability to make our life better and our town more beautiful.

The returns from such labor are "an hundredfold," and with such encouragement as is promised by the Council the efforts should be more pleasurable than irksome!

WHO IS

RUNNING THE SCHOOLS?

In a business when the employees cannot agree with the management, and when the board of directors backs the managers, there is but one road open for the disgruntled employees and that is to seek pastures new. In business a house divided against itself falls of its own weight, but it is all very different when it comes to working for the taxpayers.

For the first time in a generation Toronto appears to have a Board of Education with some business ability and considerable force of character. In the interests of economy, and under the expert advice of the chief inspector, some radical changes are being made in the personnel of the teaching staff—in fact some are being fired because their services are considered unnecessary. Then along comes a group of teachers organized into an association and tries to tell their bosses—the trustees—where they get off.

In the past Toronto's public schools have been run largely by the caretakers on the one hand and the teachers on the other. It was time for a change—Toronto—Saturday Night.

C.G.M.M. GETS CONTRACT

The Canadian Government Merchant Marine has secured the contract for Three Falls in 1924, Francisco and San Pedro, it is announced. About 100,000 tons of paper will be carried during the year.

GRAIN CARS LOADED

ON C.N.R. SHOW GAIN

An increase of more than 300 car of grain loaded, as compared with the corresponding week of last year, is shown by the Canadian National Railway's report, covering grain loadings on western lines, for the period March 13 to 19 inclusive.

ALBERTA COAL PRODUCTION

The total production of coal in Alberta during the past year shows a reduction of 6,666,9 tons in 1923 to 5,206,16 tons in 1924. The falling off in production is attributed to the mine strike during the summer.

FORAGE CROP CARS

ARE PROVING POPULAR

The forage crop seed cars that have been making a tour of central Saskatchewan over Canadian National lines will complete the itinerary at Lenoxy next Saturday. The tour has been a great success in every detail. There has been a good attendance, everywhere and keen interest has been manifested in the importance of forage crops in relation to mixed farming and soil conservation, and there was convincing evidence that the farmers of Saskatchewan are in earnest in their desire to get away from the one crop farming system.

B. C. PRODUCER OF LEAD

During last year, 84,357 tons of lead were produced in Canada. Nearly all of it came from mines in British Columbia.

MANY SILOS NOW

Great improvement, says the Deputy has been made in the matter of winter feed for dairy cows. There are between 2,500 and 3,000 silos in the province, most of which of which have been erected within the past five years. This means a steady advance in the line of winter dairying.

***If you are going to build anything from a doll's house to a mansion we will estimate the cost of it for you free of charge. Our free plan books are at your disposal, and the experience and purchasing power of one of the largest retail lumber companies in Canada is at your service. Call or phone Joe Welch; 57.

CANADIAN BRIEFS

BACON HOGS

There has not been any progress in the bacon hog industry that is desired, says Mr. Craig. The number of select hogs going to market has not materially increased during the year and is very low in comparison to the number of thick smooths and other grades. The principle of the bacon hog production is sound declares Mr. Craig but he urges the wisdom of a careful review of the whole question of method, offering the assistance and co-operation of the provincial department in bringing about any improvement in this direction.

ORIENTAL CATTLE TRADE

Mr. Craig reports upon his efforts to establish the cattle trade with Japan and of the success of the government in getting the ocean rate per head reduced from \$100 to \$37.50, stating that it is hoped that the rate will be further reduced to \$35 before long. Mr. Craig speaks of the several shipments of distinct possibility of developing a considerable trade in this direction, and also in other commodities.

LIVESTOCK CONDITIONS

In reporting on the cattle sales, Mr. Carlyle, Livestock Commissioner states that the price of pure-bred cattle has not improved a great deal during the year, but the prices of bulls of the best breeds have been more satisfactory. The prices realized at the various bull sales were improved over 1923. There is a strong demand for dairy stock.

The sheep industry, says Mr. Carlyle is in better shape than that of other classes of stock.

There has been a large increase in the production of hogs, but the production of bacon hogs, as has been stated is disappointingly low.

EXPORT OF LIVESTOCK

The statistics with respect to the export of livestock from the province during the year, show that 12,783 horses were exported, and 199,207 cattle. Shipments between local points within the province totalled 5,618 horses and 106,450 cattle.

POULTRY INDUSTRY

The value of poultry in Alberta is now \$4,488,040, according to the report of the Poultry Commissioner J. H. Hare. Alberta now stands second among all the provinces with reference to the number of poultry on farm the average number in this province being 80, compared with Canada's average of 63.9.

Egg exports grew 33 per cent. during 1924. Three years ago, Alberta was almost entirely an importing province with respect to eggs, but last it exported more than 60,000 cases of eggs, or 133 carloads.

During the year the eggs, and 750, 298 lbs. of poultry.

SOIL SURVEY

With the report of the Department of Agriculture was also tabled the report of Dr. Wyatt, of the faculty of Agriculture, on the soil survey of the Macleod district.

PROVINCIAL VETERINARIAN

The report of the Provincial Veterinarian, Dr. Talbot, reviews the experimental work in connection with contagious abortion and sterility in cattle, and goat & ewe. With respect to bovine tuberculosis, Dr. Talbot refers to the work being done by the Research Council, which was named by Hon. Mr. Hoadley some time ago in this connection, and which is now taking up the experiments with the Calmette culture.

MURINE

Refreshes Tired Eyes
Why Murine? See Why Murine is the Best Eye Medicine.

FIELD CROPS & SEED FAIR

The report of the Field Crops Commissioner, W. J. Stephen, deals with field crop competitions, seed fairs, eradication of the weed plant, the weed campaign and the school fairs. Field crop and farm competitions were held at three points and plowing matches at four points.

Excellent results were accomplished during the year on weed eradication 14 supervisors being in the field during the season.

In 1924 the provincial seed plant handled and marketed 67,993 bushels of pure seed grain, and the indications were that in the 1924-1925 season almost as much would be handled, in spite of the shortage of high-class seed production.

In 1924 there were 125 school fairs held, with approximately 185,000 entries, showing the keen interest taken in these fairs.

THE DAIRY INDUSTRY

The report of the Dairy Commission, Mr. Marker, reviews the very satisfactory state of the dairy industry of the province and bears witness to the greatly improved quality of cream and butter as a result of the cream grading service initiated two years ago. It also dwells on the increased production and the rapidly growing volume of export creamery butter. The exports of butter continue to increase, the exports by this route in 1923 being 4,000 packages of 56 lbs. each, while in 1924 the shipments by this route three firms alone totalled 13,721 packages.

There are now 89 creameries operating, compared with 75 in 1923. There were 12 cheese factories in operation.

The rooms (11) will be rented either as offices or living apartments.

BULLETIN FROM
PROVINCIAL GOVT.

New Settlers for Alberta

Under the immigration scheme of the British and Canadian governments 14 families of new settlers are now in Alberta having arrived the past week from the old country. They will be located in various places in central and northern Alberta.

For the purpose of colonizing lands which he owns in the Lethbridge Northern irrigation tract, H. E. Meibach of Lethbridge is bringing in 20 families from Bessarabia. The new colony, it is planned will raise from 300 to 500 acres of sugar beets each year.

Municipal Hail Insurance

Approximately 57 per cent. of the hail insurance written in the province during the past six years was carried under the municipal hail insurance board.

Provincial Savings Certificates

The first quarter of 1925 has brought a total of \$1,948,239 into the provincial treasury through the purchase of savings certificates. This is one of the largest total buyings for a similar period since the savings certificate plan was instituted. To date, there are 4702 investors in these savings certificates of which 4373 are Alberta investors from United States there are 92 investors in these certificates while British Columbia has provided 106.

Prominent Visitor Coming

Alberta will have a prominent visitor shortly in the person of the Duke de Nemours, descendant of Louis Philippe of France and a Nephew of the King of Belgium, who is to visit the farm of Lord Rodney at Fort Saskatchewan near Edmonton.

Start Laying Steel

Laying of steel on the new Kipp-Turbin branch of the C.P.R. which traverses the Lethbridge Northern irrigation tract, will commence the coming week. The branch will be ready for operation to handle the crop of 1925.

Pioneer Newspaper Man Retires

John A. Carswell, one of Alberta's pioneer newspapermen has retired from the proprietorship of the Red Deer News, which he has edited for many years. His successor is H. C. Scott of Red Deer.

Spring Shows

Calgary Spring Show takes place the coming week on April 9, 10 and 11. Edmonton's Spring Show is the week following from April 14 to 18.

Weather Statistics for 1924

The greatest total precipitation in the province during 1924 was at Calgary which had 24.49 inches for the year. Calgary also had the greatest amount of sunshine during the year, the total being 2271 hours, according to figures secured from the dominion weather bureau at Calgary.

Success of Municipal Hospitals

The excellent administration of the rural municipal hospitals of the province, of which there are now 15 in operation is revealed by the annual report of the supervisor A. K. Whiston. The average cost per patient day for all purposes in the hospitals was \$3.52.

the lowest cost being in the Athabasca hospital at \$2.62 per patient day, and the highest being at Okotoks, at \$6.83 but which includes the maintenance of a doctor. The average cost per patient day in 1923 was \$3.82. In the case of the hospitals there has been a reduction in the cost per patient day as compared with 1923.

There were 70,564 hospital days in 1924, and there were 7075 patients treated in the rural municipal hospitals. There were 1172 maternity cases, and 1122 babies born. A total of 1441 minor operations and 824 major operations were performed in the hospitals. In the five years that the Alberta municipal hospital scheme has been in operation there have been 24,237 patients cared for, including 4184 maternity cases, 6544 minor operations and 2294 major operations.

BEAT WITH EACH OTHER

By IRWIN GREEN

(President Greer College of Automotive Engineering, Chicago)

"Hey," yelled the motorist to the pedestrian whom he had just knocked down and run over, "Take a look at my brakes and see if they're dragging will you?"

Somewhat overdrawn possibly but any pedestrian will tell you that he wouldn't put it above an automobile driver to do such a thing. And the motorist, himself, would say, "Why don't those birds watch their step, do they think that we are mind readers? Right here is the whole situation—lack of courtesy."

Does the pedestrian thank the motorist who throws on his brakes and allows him to cross safely from the curb and catch a trolley that is to get him to the train on time? Yes, we have no bananas! Does the automobile driver wave acknowledgment to the pedestrian who goes out of his way to make things easier when the car driver is trying to steer through a congested street? No, he does not! Consequently both driver and pedestrian are to blame and a little courtesy would allow them to shield the public from preventable traffic accidents.

But there is no excuse for the jaywalker. A large percentage of accidents in the congested shopping districts are directly traceable to the disregard of the public that cross at street corners. My advice to pedestrians is to look up and down and behind, before crossing any street. Avoid dodging in front of machines, realize that the longest line of traffic seldom takes more than thirty seconds to pass and that it is better to lose thirty seconds than to log. Even the habitually careless automobile driver will give trouble in harming you if you take the slightest amount of care necessary to protect yourself.

Just plumb your faith of humanity with the old Golden Rule and see how it works out. Take a chance and give the other fellow the right of way even when it doesn't belong to him. The "go-ahead" signal. It's a hundred-to-one shot that he'll grin and wave for you to go first. But the moral effect will cause him to watch out for the next driver and offer some little courtesy that will make his other chap feel good. Once such a system is started there won't be any end to it and the roads will be a wonderful place to ride on until along comes some bird who has no place to go and wants to get there in a hurry, and then—it is all over.

THE EXAMINER'S
WEEKLY REVIEW OF
PROV. MARKETS

CATTLE

DEER—Edmonton market holding on top beef, but other steers not as active. Choice heavy and light steers \$5.50 @ \$7; good \$5.50 @ \$6; medium \$5.50 @ \$5.25; common \$4.50. Choice heifers \$5.50 @ \$6; good \$5 @ \$5.50. Choice cows \$4.50 @ \$4.75; good \$4 @ \$4.50; medium \$3.50 @ \$4; common \$2.75 @ \$3.25; canners \$2 @ \$2.50. Choice bulls \$2.50 @ \$3; medium \$2 @ \$2.25; canners \$1.50 @ \$1.75. Choice veal calves \$8 @ \$9; common \$3.50 @ \$4.50. Feeder Stockers—Choice fleshy feeders up to \$5.50, others around \$4; stocker steer \$3 @ \$4.25. Stocker heifers \$3 @ \$3.50. Stock cows \$2.50 @ \$3.

HOGS

Edmonton sales also lower with long haul hogs at \$12.50 and other loads as low as \$12 off cars; bacon hogs usual premium of 10 per cent.

SHEEP

Edmonton quotations nominal, as receipts very light; choice lambs \$13 @ \$14; yearlings \$12 @ \$13; fat ewes \$6 @ \$10.

GRAIN

Another smash in prices during the week and the tone of the trade is poor. More favorable reports of the American winter wheat crop and a willingness on the part of other producing nations to sell, has changed the tone of the market. Where it is going from here—nobody knows.

Wheat, on the hand started at a few points in the south, this week.

BUTTER

CREAMERY BUTTER—Car lots basis specials, Alberta points, around 33 @ 34c; prints and cartons unchanged; market looks steady while production down at present volume. DAIRY BUTTER—Receipts points for another month. CHEESE—Western supply well cleaned up, and eastern stock will have to be brought in until factories going again.

POULTRY—EGGS

EGGS—Another nickel has been lopped off practically all egg grades by the Calgary trade, making the basis for extras 22c and down to 17c on seconds; Edmonton still at 23c. POULTRY—Spring indifference shown in trade and prices unchanged.

POTATOES

With local shipments still light Calgary trade quotes buyin prices \$38 @ \$40 on A grade Albertas;

HAY

Bad trails reported in many districts where there is surplus hay and prices unchanged, with demand only moderate; some feed will be required for spring seeding, but not likely enough to cause any flurry.

HIDES

Market tone still bad and though not cut in list, there is difficulty in making sales of present stocks.

***Be up-to-date! We have score cards for Progressive Man Jong at the Star office.

off. All off, unless you realize that sooner or later this bird will run up against a snag which will necessitate some extra yards of gauze and a couple of doctors. In other words, do your best to make driving safer and the law of averages will take care of the rest.
